Dear Kristen:

I am a long time past due in writing this thank you letter. I can't express the gratitude I have for all the volunteers who treated my wife and I in the past several years.

When I lost my job and my health insurance back in 2004 I had no idea what I was going to do. I had several health issues that I had to worry about as well as the medications I was taking at that time. My wife had some health problems also.

We were relieved when we heard about this free clinic in State College that helped those with no health insurance. It took a lot for me to swallow my pride and except your help. A man just doesn't feel right when he can't take care of his family. We came in to talk to one of your case workers to see if you could help us. We were glade to hear we were eligible for your help.

You even helped by arranging dental appointments with volunteer dentists at your clinic as well as dentists that gave free services in their offices. You helped by making arrangements with other doctors that volunteer there time and service.

We would also like to thank all the volunteers at the reception desk that greeted us politely and really made us feel comfortable about being there.

To close I would like to again express my HEART FELT GRATITUDE for all your help and support.

And a special THANKS to Dr McLane for all he has done for me over the years. And to Luann and Dana for helping with medications.

Sincerely,

Tom Laird
